

ViewSonic®

ACCESSORIES

VSR100

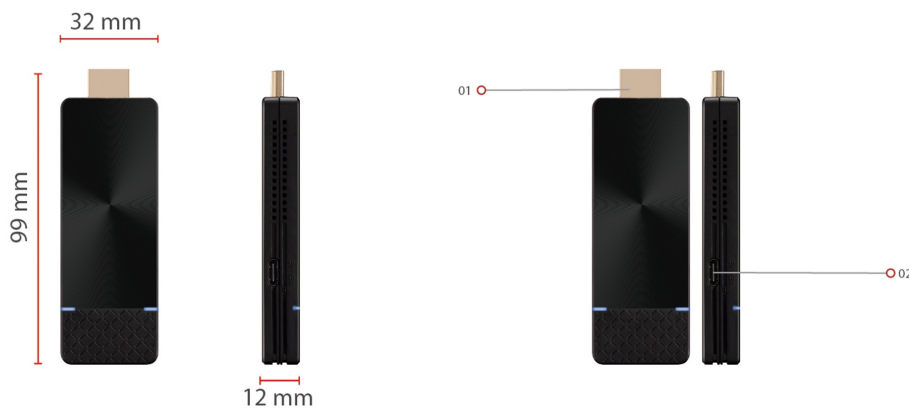

Key Features

- Fast 4K content Wi-Fi transmission
- Powerful processing performance
- Multi-screen broadcasting across devices
- Live camera and drawing support
- Android, iOS, Chrome OS, Mac, and Windows compliance

Product Description

The ViewSonic VSR100 is a powerful and compact wireless presentation dongle with an HDMI interface, allowing users to cast 4K content onto monitors or projectors from laptops or mobile devices. With the app, the VSR100 gains smart features such as a real-time video feed and handy annotation tools. It also allows four-way split screen collaboration and access to personal cloud storage.

01. HDMI out
02. USB type C (Power only)
